

The Alameda Republican Party presents a talk by

Trevor Loudon

TREVOR LOUDON

He "does the job that few in the media ever attempt" — Glenn Beck

Noted anti socialist, anti communist author Trevor Loudon will join us for an insightful talk on the rise of Marxist sympathizers within the United States. Communism has permeated American institutions of all kinds. Through systematic planning and relentless execution over the past 100 years, it has deceived the ignorant and stifled the conscience in tens of millions just in this country. The Green New Deal is just the beginning. We are at war against the biggest terrorism on earth. As our nation is horribly divided, it is vital for all of us to

recognize this new form of evil in order to win this battle. Join us for this important event as Mr. Loudon exposes "the impending Marxist takeover of the United States".
